Support Developmentally Appropriate Early Communication

Research-based training for agencies, school districts, child care centers, Early Head Start, and early childhood programs

The Baby Signs® Program gives educators and family-serving professionals practical tools to support early communication, reduce frustration, strengthen relationships, and create more responsive interactions with babies and toddlers before they are fully verbal.

Supports developmentally appropriate early communication practices

Why Baby Signs®?

- ✓ Helps babies and toddlers communicate before speech
- ✓ Supports responsive caregiving and stronger adult-child connections
- ✓ Reduces frustration and supports social-emotional development
- ✓ Encourages language development and family engagement
- ✓ Easy to use during everyday routines, classroom activities, and family programs

A Strong Fit For
